IIT-CS430-Final

by Henry Winn & Peter Hadlaw

Sample input data found in `input.txt`. Sample output data (the result of using the provided `input.txt`) is found in `output.txt`.

To run, provide an `input.txt` file following the format inside the root directory

```
NUM_MACHINES
JOBSTART JOBEND
JOBSTART JOBEND
JOBSTART JOBEND
JOBSTART JOBEND
```

and execute `python schedule.py` in the root.
